Our commitment to sustainable development

Participating in the development of the region, while having a sound commitment to the respect of the natural environment, is one of the Domaine de Bel Ombre's core values.

Our social involvement is embodied by the Bel Ombre Foundation, created in 2008, that invests in training, entrepreneurship and integration.

It has taken surrounding rural communities who aspire to integrate into this vast project under its wing.

As far as the environment is concerned, several measures aiming to improve the management of water, energy and waste, including composting and recycling, have been implemented by our hotels. The golf course uses rainwater in irrigation, 100% organic fertilizer and it uses sea salt in weed control. Frédérica Nature Reserve is working with the Mauritian Wildlife Foundation for the conservation of species and restoration of the primary forest.
